SUMMARY

Versatile Developer with a Master's in Computer Science and 3+ years of experience across the full software lifecycle. Combines expertise in driving the end-to-end product journey, from crafting intuitive UIs to deploying robust backend infrastructure. Skilled in enhancing applications with modern Machine Learning capabilities, including Retrieval-Augmented Generation (RAG) and intelligent agent workflows.

EDUCATION

- 09/2024 – 08/2025
Thunder bay, Canada

Master of Science in Computer Science, *Lakehead University* (CGPA: 3.93/4) [🔗](#)
 - **Relevant Courses:** Machine learning and deep learning, Big data and Distributed Systems, NLP, Computer Security, Cloud computing for AI and ML, Blockchain Technology and more.
- 10/2017 – 07/2021
Addis Ababa, Ethiopia

B.Sc Electrical and Computer Engineering, *Addis Ababa University* (CGPA: 3.5/4) [🔗](#)
 - **Relevant Courses:** Data Structures and Algorithms, Object Oriented Programming, Computer Architecture, Database, Data Communication, and Networking, Operating Systems and more.

WORK EXPERIENCE

- 01/2023 – 08/2024
Addis Ababa, Ethiopia

Software Developer, *Africa to Silicon Valley* (Palo Alto, CA) [🔗](#)
 - Played a pivotal role in the end-to-end development of the **SkillBridge** [🔗](#) project (AI-driven educational platform for Ethiopian University exams).
 - Enhanced AI-driven content generation by implementing **Retrieval-Augmented Generation (RAG)** and **fine-tuning** language models with custom datasets.
 - Developed and launched a high-performance Mobile application for both **IOS** and **Android** users with **Flutter**.
 - Contributed to the development of **6+ commercial applications**, [🔗](#) collaborating on **backend infrastructure** using **Go (Golang)** and **Node.js**, as well as **frontend development** for mobile and web.
- 08/2024 – 09/2025
Toronto, Canada

Backend Developer (Part time), *Arifone* [🔗](#)
 - Developed robust back-end components for the web application using **Golang** and **Node.js**.
 - Co-developed **StockIntelligence** [🔗](#), contributing to both the frontend (**React.js**) and backend (Golang).
 - Optimized third-party API integration by implementing **smart caching and update strategies**, significantly improving backend response efficiency.
- 07/2022 – 01/2023
Addis Ababa, Ethiopia

Mobile app developer, *beU Delivery* [🔗](#)
 - **Contributed to the development of the BeU Delivery mobile app**, a food and service delivery platform used by more than **100 thousand** customers in Ethiopia. [link](#) [🔗](#)

PROJECTS

- 07/2025 – 08/2025

Intelligent Job Search Automation Platform | RAG-Powered Agentic Application

Developed an end-to-end automation system that scrapes job postings using Apify/Selenium, filters them with AI (Mistral-7B + LangChain) based on location/experience criteria, and delivers personalized results via WhatsApp/Telegram daily notifications. Built with Flask API, Next.js frontend, and LangGraph agents for intelligent content extraction and summarization workflows.
- 06/2025 – 08/2025

Cloud-Native AI-Powered Content Classification System (Microservice App)
 - Built intelligent private note application using Facebook's BART-large-mnli model on Amazon SageMaker to automatically classify content sensitivity.
 - Designed cloud-native microservices architecture on **AWS ECS** with **Django**, **PostgreSQL**, **Redis**, and **Celery** for asynchronous AI processing without blocking user experience

SKILLS

- Languages:** Python | Java | Javascript/Typescript | Dart | Golang
- Frameworks:** Flutter, React js, Next js, React Native, Spring
- Machine Learning & AI:** ML Algorithms | NLP | Retrieval-Augmented Generation (RAG) | Tensorflow, Pytorch ... | Model Evaluation & Optimization | Embeddings
- Database:** MongoDB | PostgreSQL | MySQL | Vector DB | Firebase
- Soft Skills:** Teamwork, Perseverance, Communication
- Tools & DevOps:** Git, Jira, Slack, Docker, AWS
- Back-end Development:** Node.js, Golang, FastAPI, Flask

VOLUNTARY ACTIVITIES

08/2023 – 11/2023 Addis Ababa, Ethiopia	Generative AI for Africa Hackathon  , <i>Project Mentor</i> - Organized AI for Impact Hackathon, the largest hackathon in Africa in collaboration with the Ministry of Innovation of Ethiopia and Addis Ababa University. - Mentored a team that ranked Top 40 out of 800+ teams from 47 African countries.
04/2023 – 09/2023 Addis Ababa, Ethiopia	Teaching Assistant , <i>Data structure and Algorithms at A2SV camp</i> I volunteered as a teaching assistant for the A2SV batch III, a free program in Addis Ababa introducing high schoolers and university students Python, data structures, and algorithms, alongside the A2SV foundation.

CERTIFICATES

• Supervised Machine Learning: Regression and Classification 	• Advanced Learning Algorithms 	• Back End Development and APIs
